

people. Mostly, from what I've heard from most of you, you were all these big, tough on crime people, and then once you get in here, you know it seems like everybody thinks, well, yeah, well, maybe, you know, we have to make sure they are good while they are in prison, so let's make sure we have, you know, a kind of expensive program for everybody, and let's make sure that we don't keep them in there too long, because if we keep them in there too long, anywhere near their original sentence, they are going to misbehave. You know, I hope the people seriously see the erosion in the length of time that people are spending in our prison system, and I know you can argue about space, and I know you can argue about everything else, but I am arguing about safety of the people in the cities and counties that you are going to be changing these things for. I am arguing about people thinking this is not the direction that we need to be taking on criminal behavior. It is not the direction...I am again going to vote against this as I did two years ago on the original bill that Senator Lindsay did...I am sure, Senator Lindsay, that LB 113 was your bill. Thank you.
